NO MORE WATCHFUL WAITING!

General Roach's Army to Be Attacked by the Army of Housewives Commanded by General Peterman

GEN. PETERMAN, COMMANDER-IN-CHIEF OF ARMY OF EXTERMINATION.

Services of Texas Rangers and Aeropiane Corps Unnecessary.

Gen. William Peterman, veteran of many campaigns, has been chosen to lead the army of extermination in the clean-up campaign now being waged in Washington.

The appointment, sought by many able strategists, has been made through no favoritism, but because General Peterman's long experience and fine record as a leader and strategist entitle him to the honor.

No quarter will be given, and no prisoners War to the death is the watchword passed along the lines, and the slaughter of the enemy will be terrific.

Supply depots, strategically located in the stores of all Washington Druggists, are prepared to furnish ammunition in quantity to the troops

of housewives under General Peterman's command, and scouts are already reporting preparations by the enemy for evacuating intrenched

Strong detachments of the army had a brisk skirmish with the enemy in Georgeto wn this morning, who retreated, leaving many dead and dying on the field.

Sounds of battle are heard in the direction of Glen Echo as we go to press, but definite news of the result of the engagement has not as

General Peterman announces that with the forces, supplies and equipment at his command not outside help will be necessary in the cleanup campaign now in progress in Washington, and has declined all offers of outside assistance.

"We are well able to handle the situation with our present forces," said General Peterman to the newspaper men this morning," and with the thorough and carefully planned attack all along the line, the campaign will soon be over."

Aeroplanes Cannot Be Used.

"From the very nature of our enemy and its habitat it will be impossible to use aeroplanes for

scouting or attack. Only one kind of powder is suitable for routing the foe, and that is Peterman's

Roach Food, and it cannot be fired from the army field pieces or muskets.

The attacks will be directed at night against the enemy's intrenchments, and searchlights will play an important part in the result.

No Press Censorship.

"You newspaper men will be welcomed inside the lines at all times, and fully posted as to the progress of the campaign. I am a thorough

Clean-Up Campaign Begins April 15

THIS IS THE SEASON, THIS IS THE TIME for a general clean-up campaign against Roaches, Water Bugs, and Bed Bugs. Clean them out NOW by using Peterman's Roach Food and Peterman's Discovery. Kill these loathsome pests NOW, while doing Spring House Cleaning. and you kill the eggs, too. No home, no matter how carefully guarded, is immune from invasion.

HOW THESE PESTS MAY ENTER YOUR HOME

You may pick them up in a street car or in almost any public place.

There Are Other Ways-Many Ways-They Can Get In There Is ONE SURE WAY to Get Them OUT

etemán's Discovery Kills Bed Bugs and Their Eggs How Peterman's Kills Peterman's Roach Food has been the housewives' dependence for 28 years for quickly killing roaches and water bugs. It contains food substances or baits which entice them from their hiding places. They eat it and die. If they even travel over it, it kills them, ridding the premises in one or two days if applied as directed

Prominent Medical Authorities Assert

It Costs Only a Little to Kill Off

All These Pests.

Cans. Ask for PETERMAN'S. It's on the Red Cans, in lettering like the big name on this page.

It's been the best for 28 years. Widely imitated, but never equaled. Ask your neighbor about Pe-

Peterman's Roach Food comes in 15c., 25c., and 50c. Cans. Peterman's Discovery in 15c. and 25c.

onvey germs of disease by biting the unsuseng sleeper. Health boards have issued bulletins pointing out the perils of such infection.

Roaches (Periplaneta Americana) inhabit the toilets, sewers, and other insanitary places by day and at night come forth with every variety line. Don't let your home be a weak spot in the of filth sticking to their feet. They run over defense of Washington against roaches and bugs.

t bed bugs (Cimex lectularms) are known | dishes, utensils, and food, leaving a trail of millions of disease germs.

The one safe, sensible thing to do is to rout them out forever, while other families are doing the same, by killing them with Peterman's.

Every Washington housewife is a captain in the campaign and her own home is the firing

How to Use It

Kills Roaches and Water Bugs

To make the campaign effective it is necessary that all the premises suffering from the pests be treated simultaneously and thoroughly to KILL THEM ALL. If only a few premises are treated, Roaches and Bed Bug's breed so rapidly that where undisturbed they will soon infest the places cleaned. Spring is the time these pests breed, multiply, and spread to an alarming extent, and it is at this season that the housewife can do the most effective work in destroying the old and young bugs-thus preventing the spread

Used Also as a Preventive

Peterman's Roach Food should be applied in every household and the powder sprinkled out of sight, where it will remain undisturbed in cracks and crevices where roaches hide. If one or two roaches invade the premises they will be promptly killed by the Roach Food, preventing the establishing of a colony of roaches in the household before the housewife becomes aware of their presence. By sprinkling Roach Food out of sight in crevices, etc., it will not be swept up, but will serve as a preventive to keep the premises continually free from pests.

Peterman's Discovery (liquid) should be applied to bedsteads during Spring and Fall cleaning. With the spout on every can you can force it into all the seams and joints of your bed and woodwork in the room. It kills the bugs and kills their eggs, and is effective as a preventive. A pint can of Discovery is enough for a single bedroom, and will rid the worst infested room.

> START YOUR PART OF THE FIGHT. The Day Is HERE-The Time Is NOW.

Don't put off your part of this city-wide fight. Kill these dangerous insects now, while they are breeding. Dr. Wm. Peterman's Personal

GUARANTEE

Guarantee to You

I hereby guarantee that Peterman's Roach Food, Peterman's Discovery (liquid), and Peterman's Ant Food will entirely rid any building or premises of roaches, water bugs, bed bugs, or ants if the above preparations are used in accordance with directions plainly printed on each package. I authorize any dealer to cheerfully refund the purchase price of the above preparations to the purchaser who can show that under the above conditions the preparations have not rid the premises of bugs, and charge the sum to us. It will be promptly paid.
